

# Successful Application of Art. 13 Commission Regulation (EC) No 1828/2006

Submitted on 25 Mar 2013 by

Improving your Administrative and On-the-Spot Verifications - Advanced Seminar, 18th – 19th April 2013

The European Commission requests Managing Authorities as well as Intermediate Bodies of EU Structural Funds to guarantee compliance of EU funding with both national and EU law. For verification, Article 13 of Commission Regulation (EC) No 1828/2006 stipulates certain procedures and requirements. Double financing, irregularities and fraud have to be detected and prevented. Administrative verifications and on-the-spot checks according to Art.13 Commission Regulation (EC) No 1828/2006 remain a challenge for first level controllers from all bodies involved in EU Funds.

Appropriate verification methods are the key to avoid decisive errors that might lead to reimbursement of funding.

This Advanced Seminar has been designed for experts who have experience in first level control already. They are invited to familiarise themselves with the requested obligations that institutions have to fulfil regarding the administrative and on-the-spot verifications. They will learn how to:

- comply with the requirements regarding personnel and overhead costs and claims;
- prevent, check and detect double financing successfully;
- use simplification of costs correctly;
- obtain information on how to report irregularities to the relevant authorities;
- benefit from a special focus on compliance regulations for infrastructure projects;
- verify expenditure;
- develop effective checklists for verifications and on-the-spot visits;
- avoid common mistakes and study real cases in our practical workshop.

Further details regarding programme, speakers and registration formalities are available here:
