

Guides to Implementation of the (Revised) PSI Directive in Croatia

In Croatia publication of open government data is coordinated by the Ministry of Administration and the Information Commissioner. The published data are grouped on the open data portal. Localised guides have been jointly developed by University of Zagreb, Faculty of Organization and Informatics and the Information Commissioner who attended the final face-face meeting of Share-PSI 2-0 and the W3C Data on the Web Best Practices Working Group. They comprise the entire open data lifecycle. These guidelines are going to be further developed in following months and accompanied by relevant workshops in order to motivate public bodies for further publication and increase the quality of published data.
