

# Guides to Implementation of the (Revised) PSI Directive in Luxembourg

"Recommandations pour l'ouverture des données publiques" is the Share-PSI localised guide for Luxembourg. It is edited by the [Luxembourg Institute of Science and Technology](#) taking into account the national and regional context. Luxembourg is actively engaged in the implementation of the PSI-directive via the "Digital Lëtzebuerg" national strategy. The national open data portal [data.public.lu](http://data.public.lu) has been online since April 2016 and is regularly updated with new datasets.
