The Smartfiles Network
Website

URL   **https://smartfiles.lereto.at/#main**

Quick facts

- Company: The Smartfiles Network
- Sector: Justice, Legal System & Public Safety
- Product / service: Website
- Type of data: EU and national case law data
- Origin: Austria

Description

The Smartfiles Network makes PDF files with EU and national court rulings easily accessible, searchable, and shareable, thereby helping people to understand the evolution and connectedness of case law.

Benefits

- Clarity – The website combines information from different databases and enables users to see the connections and influences EU case law has on national case law.

- Understandable – The Smartfiles Network provides a unique view of the interconnectedness of European case law through interactive visualisations.

THE SMARTFILES NETWORK
