### Quick facts

-  Company: Bizportal
-  Sector: Economy & Finance
-  Product / service: Company
-  Type of data: Business and procurement data
-  Origin: Bulgaria

### Benefits

-  BizPortal is a web-based public procurement and EU grants information portal.
-  The company offers the largest business opportunities daily notification platform in Bulgaria.

### How Open Data is used

-  The portal uses Open Data from a variety of sources: public procurement and tenders from Bulgaria (and other countries), European grants, information on (European) trade fairs, auctions and projects from institutions and development banks around the world.
-  Data solutions, such as the Company Monitor, integrate various datasets in order to efficiently find new business opportunities.

### Future plans

-  Bizportal wants to extend its geographical coverage and keep increasing transparency and predictability via analytical services and automation.
