Quick facts

 Company:	Cyprus Guide
 Sector:	Population & Society
 Product / service:	Application
 Type of data:	Public data
 Origin:	Cyprus

Description

The Cyprus Guide is designed to grant refugees and asylum applicants access to services that facilitate their integration into society and help them navigate their way in the local labour market. The website aims to ensure participation of migrants in the economy and culture by offering support and guidance. As Cyprus has an increasing migrant stream and migrants find it difficult to obtain the information they need, this application tackles a major problem.

Benefits

The Cyprus Guide is available in a wide range of languages, including Arabic, Filipino, Russian, Sinhala and Tamil, and provides information on a wealth of themes such as geography, history, culture, politics, economy, employment, education, health care, utilities and useful contacts.

How open data is used

The application uses open data from various government departments including information and location of hospitals, citizen service centres, education and points of interest.
