 Company:	miHub
 Sector:	Population & Society
 Product / service:	Application
 Type of data:	Civic data
 Origin:	Cyprus

**Description**

The Migration Information Center provides housing, education, health, and social services for immigrants to help them feel protected, safe, and informed. The application is designed for asylum seekers, refugees, international protection beneficiaries, third country nationals, domestic workers, students, and resettled refugees.

Benefits

MIC fills the gap in terms of integration services available and helps make positive impact on the lives of thousands of foreign people who live in Cyprus. Through support and access to various services migrants' can develop new skills and harmonically adjustment to Cypriot culture.

**How open data is used**

MiHub is developed through a collaboration between the University of Nicosia and the research organisation CARDET, and the Cyprus University of Technology. These institutions make use of open data to support the access to services and resources that meet migrants' needs.
