Know about your waste

Website

Re-use

URL	http://genbrug.smartaarhus.dk/

Quick facts

- Company: Municipality of Aarhus
- Sector: Environment
- Product / service: Website
- Type of data: Recycling station data
- Origin: Denmark

Benefits

- The website visualises Open Data that otherwise might be hard to understand for citizens. This way they can easily follow waste amounts develop.

How Open Data is used

- Data on how much waste, of which categories and what recycling stations was already available beforehand. The website visualises the numbers which were rather abstract beforehand.

Nedenfor ses data for alle genbrugsstationer i Aarhus Kommune

Future plans

- There are no indications on whether the municipality wants to further enhance the functionalities of the website.
