 Company:	Civitta
 Sector:	Economy & Finance
 Product / service:	Website
 Type of data:	Market data
 Origin:	Estonia

**Description**

Civitta started as an alliance of advisory firms in the Baltic States, and headquartered in Estonia, CIVITTA is now the leading management consultancy from Central Eastern Europe. Our consultants support companies interested in and operating in over 40 countries in Europe, Asia, and the Americas, resulting in more than 10 000 completed projects.

Benefits

As a leading consultancy firm, Civitta introduces the benefits of open data to a larger audience and can help their clients make more informed decisions.

CIVITTA

How open data is used

Civitta uses open market data to help their clients reach their business goals. Civitta conducts research on supply and demand, economic growth curves and market trends. The company uses both national portals, mainly in Eastern Europe, but also across other European countries and European data portals.
