 Sector:	Regions & Cities
 Product / service:	Website
 Type of data:	Cycling measures data
 Origin:	Europe

### Description

The European Cyclists' Federation (ECF) promotes cycling as a sustainable and healthy means of transportation and recreation. As a response to the COVID-19 pandemic, they created an interactive dashboard that shows the latest data on cycling measures (including different types of infrastructure and financial measures) as well as country ratings, focusing on responses to the crisis.

### Benefits

The pandemic's lockdown gave ECF the opportunity to prove it is the safest, most efficient urban mode of transport.

### How open data is used

To track the new cycling measures, ECF has analysed official and unofficial news, plans, announcements and reports from members on the ground and summarised them in an interactive dashboard.
