

URL <https://www.europeandatajournalism.eu/eng/Tools-for-journalists/InfringEye>**Quick facts**

 Company:	European Data Journalism Network
 Sector:	Justice, Legal System & Public Safety
 Product / service:	Website
 Type of data:	Legal data
 Origin:	Europe

**Description**

InfringEye is a tool developed by Openpolis that aims to make it easier for journalists, stakeholders and citizens to track EU infringement procedures against Member States. Users can filter the data by country, status and topic of interest.

**Benefits**

InfringEye helps to put data into context and enables users to more easily find EU infringement procedure data.

# InfringEye

Understanding Eu infringement procedure through data

**How open data is used to**

Create freely availability visualisations; to contribute to datasets that highlight key aspects related to infringements
