Quick facts

 Company:	Musée d'Orsay
 Sector:	Education, Culture & Sport
 Product / service:	Website
 Type of data:	Cultural open data
 Origin:	France

Description

Musée d'Orsay offers a video gallery and interactive floorplan to online visitors of the museum. The video gallery includes insights on the collections, exhibition videos, extracts from shows and symposia presented in the auditorium. Videos can also be found on the YouTube channel of the museum. The videos are educational and explain more about the history and story of the artworks and conservation of artworks in the museum.

Benefits

- Online visitors can still see famous artworks and enjoy art safely from their home.
- European citizens can bond over communal art heritage through commenting on content online.

How open data is used

Cultural open data is uploaded in the form of high-resolution images of art. The national government of France also supports these sort of data platforms for sharing information and images about art works between public museums and their visitors.
