Quick facts

-  Company: Transfermuga
-  Sector: Transport
-  Product / service: Website
-  Type of data: Transport data
-  Origin: France

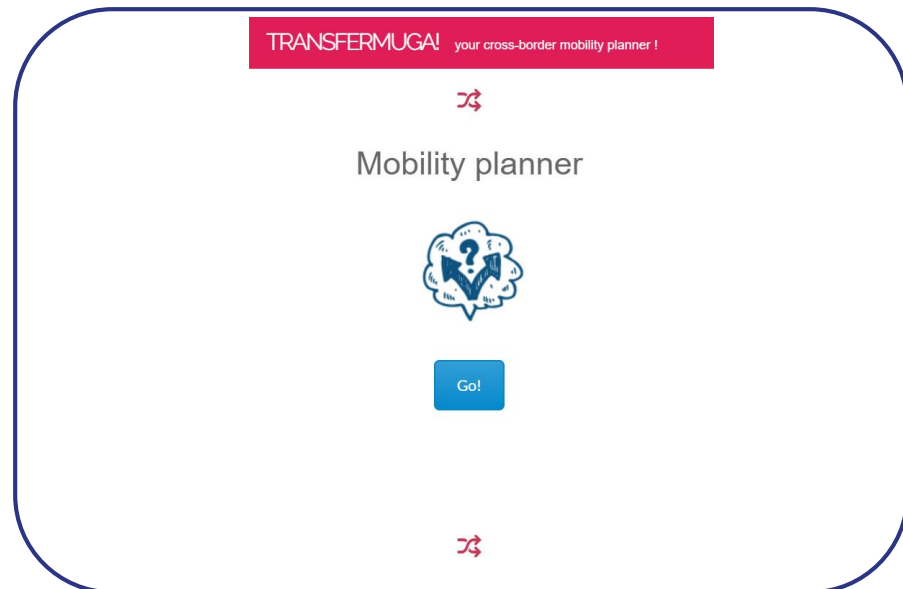

Benefits

-  Website provides a cross-border mobility planner combining different transport companies and tolls.
-  All data is also available for developers and meta-applications, such as Citymapper or Moovit.

How Open Data is used

-  Transfermuga combines Open Data on transport with information on fees and tolls.
-  By using Open Data, the website can plan cross-border commuting by coach, bus, train, boat, car or bike and includes sharing themes.
