

URL <https://www.basedig.com/>**Quick facts**

 Company:	Basedig
 Sector:	Economy & Finance
 Product / service:	Website
 Type of data:	Governmental data
 Origin:	Germany

**Description**

Basedig is the first search engine dedicated to databases. Basedig provides direct access to structured data, provided by thousands of data suppliers. Basedig is the ideal platform for analysts, consultants or data scientists looking to easily accessible, clean and structured data.

**Benefits**

Basedig structures open data. As more data is becoming available and is being shared, Basedig can provide users a more holistic overview of the available datasets.

**How open data is used**

Basedig enables data providers to post their data in classical data formats (JSON, Excel, CSV or Databases). These datasets can then be queried and extracted directly by end users, directly from a search bar, or via a specific Basedig API.
