Quick facts

-  Company: Confiscati Bene
-  Sector: Justice, Legal System & Public Safety
-  Product / service: Website
-  Type of data: Data on confiscated assets
-  Origin: Italy

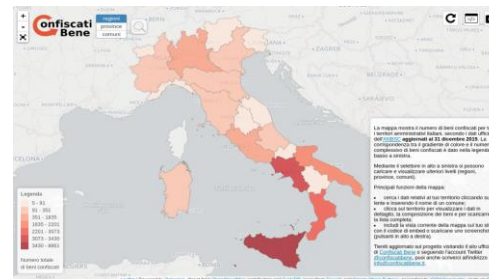

Description

The project Confiscati Bene catalogues data about assets that are confiscated from the Mafia and how they are re-used in Italy.

Benefits

-  Confiscati Bene promotes transparency about how many confiscated assets there are, where they are, and how they are re-used is.
-  Users are asked by the project to help in opposing the mafia and to promote legality and justice.

How open data is used

-  Confiscati Bene receives data from onData, an association consisting of journalists, developers, public employees, professionals, and activists that uses open-source technologies.
-  Furthermore, everyone can provide them with insights.
