

URL <https://www.insymbio.com/>**Quick facts**

-  Company: Rethink – Sustainable Solutions
-  Sector: Environment; Finance & Economy
-  Product / service: Platform
-  Type of data: Marketplace data
-  Origin: Italy

**Description**

InSymbio is a business-to-business (B2B) marketplace that converts biomass, waste, and agricultural waste from one activity into the raw materials of another.

**Benefits**

-  One business can use InSymbio to convert their biomass and agricultural waste into revenue and does not have to take care of the disposal.
-  Another business can buy the biomass and agricultural waste as cost-effective raw materials for production.

**How open data is used**

Businesses provide InSymbio with data about what they want to sell or about what they are looking for to buy.
