Matera Pulita

Application

Re-use

URL   Link

Quick facts

- Company: Matera Pulita
- Sector: Regions & Cities
- Product / service: Application
- Type of data: Recycling data
- Origin: Italy

Benefits

- The application provides recycling guidelines and reports to inform citizens. Furthermore, they can arrange pick-up times for bulk waste collection and report public spots that need to be cleaned.

How Open Data is used

- The application combines various datasets ranging from informational recycling guidelines to current reports and news. Real-time tracking and map data is also accessible from the app. Lastly, users can take photos with geo-tags that they transmit to public authorities.

Future plans

- The town has suspended the use of the application and has not used reports sent in by citizens since October 15, 2014. However, citizens continue to submit reports and the platform is still available online. Whether the service will be restarted remains unclear.
