## Quick facts

 Company:	Get Lev
 Sector:	Transport
 Product / service:	Website & Application
 Type of data:	Geodata
 Origin:	The Netherlands

## Description

Get Lev makes light electric vehicles accessible to everyone who has joined the network. As “not-really-cars” they are easy to park and use, but keep people protected from outside elements. Get Lev is part of Getaround, a global car sharing marketplace that operates in the carshare market with technology solutions, like Lev. This service is available in the Dutch city Rotterdam.

## Benefits

- Use of electric vehicles reduces pollution in cities.
- These smaller vehicles can be used by people who do not have access to a car.

## The newest move in Rotterdam

## How open data is used

Geo open data is used to connect people with available vehicles through the application. Geodata offers maps of the surrounding area and widely used transportation routes in the city. In this manner, Lev can make sure their vehicles are available in all highly used transportation routes.
