 Company:	DFØ
 Sector:	Government & Public Sector
 Product / service:	Website
 Type of data:	Government data
 Origin:	Norway

**Description**

Statsregnskapet is a website that visualises government spending and budgets on the basis of publicly available government statistics. In doing so, it aims to create transparency in government spending.

**Benefits**

In one overview, and by means of various graphs, the website visualises:

-  Where the money came from;
-  What the money was spent on;
-  Which department spent the money; and
-  What the monthly and yearly developments are.

**How open data is used**

Statsregnskapet utilises the data published by the Directorate for Public Administration and Financial Management (DFØ), Norway's national body for public sector finances.
