

URL <http://afla.md/>**Quick facts**

 Company:	AflaMD
 Sector:	Education, Culture & Sport
 Product / service:	Website & Application
 Type of data:	Data on educational institutions
 Origin:	Republic of Moldova

**Description**

At Afla MD information and ratings on educational institutions in the Republic of Moldova are published. This includes data, such as ratings, statistics, budgets, locations, and contact information. Additionally, questions can be submitted online and answers are provided by the ministry.

Benefits

Afla MD provides residents with a clear picture on educational institutions, such as schools and how they differ from each other.

**How open data is used**

-  The data on AflaMD is provided by the data.gov.md portal, which is run by public authorities.
-  As a second source, data related to the schools contact information and their geo location is collected by crowd sourcing mechanism.
