### Quick facts

- Developer: Alexandru Surdulescu
- Sector: Education, Culture & Sport
- Product / service: Application
- Type of data: Historical and architectural data
- Origin: Romania

### Benefits

- Provides educational value to every citizen.
- Boosts the country's touristic value and thus increases its economic potential.

### How Open Data is used

- VisitRo includes Open Data provided by Romania's Ministry of Culture.
- It offers historic and archaeological information about monuments, but also architectural data about buildings.

### Future plans

- The application is expected to keep playing an important role in Romania's tourism sector.
