

URL <http://culturalroutes.ru/>

## Quick facts

-  Company: Culturalroutes
-  Sector: Education, culture and sport
-  Product / service: Application
-  Type of data: Parking, data published by museums
-  Origin: Russia

## Benefits

-  Reduces time spent on browsing through tourist information sites.
-  Overlays tourist data from different sources into one map.
-  Increases awareness for cultural and historical sights in Russia.

## How Open Data is used

-  By mapping existing information from Russia's government data portal on availability of shared bikes, taxis and museums, the app reduces the time spent for tourists browsing various websites and data sources to plan their day and suggests tours with these different transportation modes.

## Description

-  Helps users plan walking and biking routes along historical and cultural sites in Moscow
