<https://www.informa.es/>**Quick facts**

-  Company: Informa D&B
-  Sector: Economy & Finance
-  Product / service: Company
-  Type of data: Financial and commercial data
-  Origin: Spain

**Description**

Informa D&B helps companies and businesses minimise the time spent looking to expand their business whilst keeping their risk at a minimum. In doing so, the company provides commercial, financial, marketing and industry-specific information for clients and their suppliers.

**Benefits**

Informa D&B provides access to international trade reports through the world's largest databases of companies covering more than 300 million via the Dun & Bradstreet Network. In addition, online sector reports, marketing reports and commercial datasets offers an industry-specific perspective as well as developments over the years.

**How open data is used**

Informa D&B obtains information through public government gazettes, company reports, press releases and announcements from public administrative bodies as well as the official financial regulatory bodies. The collected data is then made available through the database, of which a large part is openly accessible.
