## Quick facts

- Company: Centric Netherlands B.V.
- Sector: Regions & Cities
- Product / service: Application
- Type of data: Open governmental data
- Origin: The Netherlands

## Benefits

- Hier wil ik wonen ('I want to live here') is an app that compares a user's living environment to that of someone else. A user can filter which indicators are important to him/her, by giving a score between 1 and 100 to various categories.

## How Open Data is used

- The application makes use of Open Data coming from various sources, such as the Department of Waterways and Public Works, the Dutch Weather Institute and the National Database for Road Traffic Data. The National Database for Road Traffic Data for instance provides Open Data about the amount of noise by traffic for a home address. The various categories include: comfort, health and safety.
