<https://apps.apple.com/nl/app/open-huis>**Quick facts**

-  Company: OpenHuis
-  Sector: Economy & Finance
-  Product / service: Application
-  Type of data: Property insights
-  Origin: The Netherlands

**Description**

In this application, statistical, demographic, and basic information about buildings including the WOZ can be found. OpenHuis gives citizens a better understanding of the area they may want to buy or rent a house.

**Benefits**

-  Transparency – OpenHuis enables people willing to buy a house to get more knowledge on the statistical and demographical information of specific neighbourhoods.
-  Cost awareness – The application allows property owners to better predict the value of their own house based on price information of houses in their neighbourhood.

**How open data is used**

OpenHuis uses information from different data sources, such as Basisregistratie Adressen en Gebouwen (BAG), Centraal Bureau voor de Statistiek and National Georegister.
