Quick facts

- Company: Rijksmuseum Meesterwerken
- Sector: Education, Culture & Sport
- Product / service: Application
- Type of data: Rijksmuseum data
- Origin: Netherlands

Description

Meesterwerken contains more than 111,000 descriptions of objects in the Rijksmuseum that can be filtered based on type, age, origin, material and technique. The objects can also be listed based on order of relevance, period, and the size of the object. In addition, it is also possible to search via a map of the Netherlands.

Benefits

Accessibility - Anyone who wants to gain more knowledge about the artworks within the Rijksmuseum can use the application, both at home and on location.

How open data is used

Through the available data from the Rijksmuseum Amsterdam, this application enables users to search for specific works of art within a collection as well as search for its particular location.
