## Quick facts

-  Company: SumoBrain
-  Sector: Justice, Legal System & Public Safety
-  Product / service: Platform
-  Type of data: Patent data
-  Origin: The United Kingdom

## Benefits

-  SumoBrain facilitates easy information access by consolidating patent information from different government patent websites.
-  Patent search is easier, more transparent and more accessible to e.g. lawyers, investors and researchers.

## How Open Data is used

-  SumoBrain obtains and consolidates information from government patent sources such as the U.S. Patent and Trademark Office, the European Patent Office and the Japan Patent Office. The patent data is stored and accessible to anyone interested in a user-friendly manner.
