Quick facts

-  Company: AccessEd
-  Sector: Population & Society
-  Product / service: Application
-  Type of data: Data about universities and curriculums
-  Origin: United Kingdom

Description

AccessED shares their expertise and promotes access to university for young people from under-served backgrounds around the world. This includes curriculum programmes; digital engagement materials; information, advice and guidance material.

Benefits

-  Open application – AccessEd enables users to have access to curriculum programmes, deliver in-person or by teachers, for anyone.
-  Broad customer focus – Supporting entrepreneurs to incubate new university access programmes and grow social enterprises, providing engagement materials for students and teachers, and offering training and leadership development opportunities for researchers.

How open data is used

AccessED generates advice for young people based on education insights from sources such as universities and their programmes, including the curriculums programmes, information, advice and guidance materials, and digital engagement materials.
