- The municipality of London provides data on job demand and skill supply.
- With the use of career, employment and training datasets Mime Consulting is able to create the tools for young people to gather information and make the right decisions.

mime *making information matter*

Description

- Mime Consulting is an expert in the education sector. The company aims to improve the life chances of young people by informing them on education opportunities and demand for skills and knowledge in the area. The same data is also used such that education practitioners can align their programmes with the needs of the area.
