Quick facts

-  Company: Windy App
-  Sector: Environment
-  Product / service: Application
-  Type of data: Open metrological data
-  Origin: USA

Description

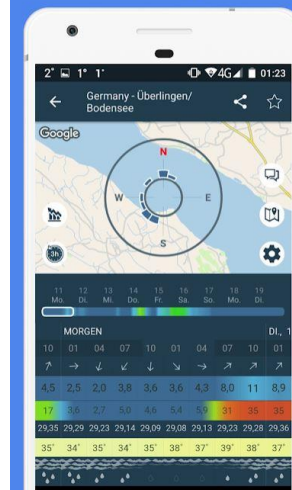

Windy App gives users detailed maritime weather forecast for kites, surfers, sailors, and fishers. Users get information on wind speed, temperatures, waves, and tides. Furthermore, an in-built chat function allows users to talk to locals or share reports with others.

Benefits

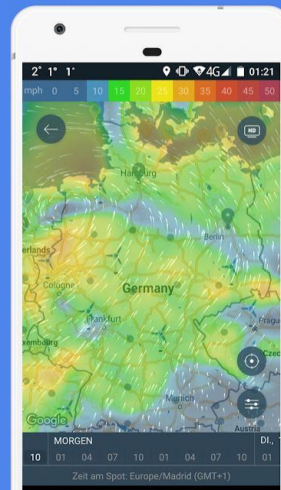

-  A fast and comprehensive overview or weather forecast especially designed for outdoor maritime activities.
-  The application brings people together by allowing a chat function to share real-time news about spots.

Wetter-App №1

Windvorhersagekarte

How open data is used

The application combines open metrological data from over 30,000 weather stations across the world that merge into maps.
