### Quick facts

-  Company: Ik haat Gent
-  Sector: Government & Public Sector
-  Product / service: Application
-  Type of data: City data
-  Origin: Belgium

### Benefits

-  Ik haat Gent (I hate Ghent) is designed to find information about things you dislike as opposed to things you love, by avoiding places where there are many dogs, students, children, elderly, bars, tourists, work, or haters.

### How Open Data is used

-  Open Data is used to make it easier to avoid things you hate, than to tolerate things you hate.
-  Datasets made available by the Open Data Portal of the city of Ghent are used to make this application possible.
-  Information is provided on dogs, students, children, elderly, bars, tourists, work, and haters.

### Other information

-  Ik haat Gent was one of the applications featured as show case at [Apps for Ghent](#).
