Quick facts

-  Company: Center for Mobile Computing
-  Sector: Energy & Utilities
-  Product / service: Application
-  Type of data: Public Sector
-  Origin: Cyprus

Benefits

-  The application helps users to find the cheapest petrol stations in their area. It shows the fluctuations of fuel prices and it shows the stations by district, area and company.

How Open Data is used

-  The information provided is based on Open Data: the prices are obtained from the official website of the Ministry of Energy, Trade, Industry and Tourism every two hours.

Other information

-  The latest version (1.3) includes an informative screen for each gas station that contains the station's price history for 2, 4 and 6 months.
