## Quick facts

- Company: Where Do I Live
- Sector: Real Estate & Housing
- Product / service: Web solution
- Type of data: Multiple domains
- Origin: Lithuania

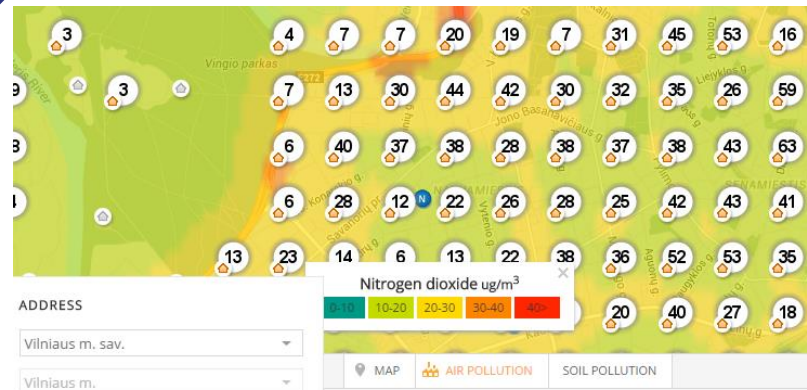

## Benefits

- Publishes detailed available real estate information.
- Has a function to compare houses/neighbourhoods.
- Platform to sell new real estate projects.

## How Open Data is used

- The app uses information about the real estate and living environment, such as utility taxes, crime rate, school rankings and air pollution.
- The open data sets allow to identify a match between housing preferences and the real estate market.
- Shows real estate that is for sale and rent.
