## Quick facts

- Company: Moldova Open Data Initiative
- Sector: Education & Research
- Product / service: Website
- Type of data: Education
- Origin: Moldova

## Benefits

- The portal allows visitors to compare schools based on different criteria – infrastructure, students' performance or annual budgets.
- Improves the education system – Perfect information about products is one of the characteristics of competitive markets.

## How Open Data is used

- The School Portal, developed under the Moldova Open Data Initiative, uses data made public by the Ministry of Education of Moldova to offer comprehensive information about 1529 educational institutions in the Republic of Moldova.
