Quick facts

-  Company: DeepSleep
-  Sector: Health
-  Product / service: Mobile app & cloud based web services
-  Type of data: Sleep patterns
-  Origin: Poland

Benefits

-  DeepSleep offers a sleep sensor that monitors a child with high precision; provides automated sleep analysis and sleep recommendations.

How Open Data is used

-  The uniqueness of the automated therapy lies in combining recognized therapeutic guidelines and best practices with PhysioNet Open Data on sleep patterns and process automation in the device.

Other information

-  DeepSleep provides simple access to specialist knowledge and an effective screening and therapeutic tool to use in their practice. Based on the data collected by the sensor and originating from the therapeutic algorithm they can offer additional services like snore or apnea diagnosis and behavioural therapy.
