Quick facts

-  Company: Adzuna
-  Sector: Population & Society
-  Product / service: Website
-  Type of data: Economy & Finance
-  Origin: United Kingdom

Benefits

-  Free access to its jobs data via an application program interface (API).
-  Aggregation of job adverts into a central searchable engine.

How Open Data is used

-  Developing its Job Index, which provides an accurate, complete and timely view of the UK jobs market.
-  Job Index compares Labour Market Statistics (Jobseeker's Allowance Claimant Count), published by the Office for National Statistics, with Adzuna's jobs data to generate new metrics such as jobseekers per vacancy by location.
